

# RESIDENTIAL APPLICATION PACKET

This application packet applies to construction of residential (single-family use), non-commercial structures, including normal appurtenances such as fish cleaning tables, watercraft storage facilities, stairways, and finger piers, etc.

## OBTAINING AUTHORIZATION

### Contact Field Office

The property owner who desires to construct, rebuild, or replace structures on State Land should contact the Texas General Land Office (GLO) Field Office nearest their project site.

For new structures please contact the **Permit Service Center** (PSC) for your region or email project questions and details to: [Permitting.Assistance@glo.texas.gov](mailto:Permitting.Assistance@glo.texas.gov)

### **Lower Coast (Colorado River south to Rio Grande River):**

#### **Texas General Land Office**

#### **Corpus Christi Field Office & Permit Service Center**

602 N. Staples St., Suite 240

Corpus Christi, TX 78401

(361) 886-1630

### **Upper Coast (Louisiana border south to Live Oak Bayou):**

#### **Texas General Land Office**

#### **La Porte Field Office**

11811 North D Street

La Porte, TX 77571

(281) 470-1191

#### **Permit Service Center - Texas A&M University - Galveston**

Building #3026, Room 123

P.O. Box 1675

Galveston, TX 77553

Toll Free: (866) 894-7664

### **Prepare and Submit Application Packet**

Based upon guidance provided by the PSC or Field Office, the applicant must prepare and submit an application packet for the structure(s) to the GLO. The application packet must include:

- A. A completed application signed by property owner (required) and agent (if applicable).
- B. Proof of ownership to the littoral property (i.e. copy of warranty deed or current tax statement).
- C. Drawing of all existing and/or proposed structures at the property which extend onto State-owned land such as rip rap, groins, etc., in accordance with the **Preparation of Maps, Plats, and Project Plans** section of this packet.
- D. Dimensions of all structures must be included on all project plans.
- E. Approximate line of mean high tide must be included on all project plans.
- F. Any other information requested by the PSC or Field Office.

### **Field Office Response**

GLO staff will review the application materials and approve or deny - in writing - the request for use of State-owned land. Your project will also be reviewed to determine if the GLO may administer the U.S. Army Corps of Engineers (COE) General Permit. If not, a copy of this application will be forwarded to the COE office for processing.

**No work may be performed on State-owned land until the applicant receives written authorization from the General Land Office. Unauthorized work on State-owned land may subject the responsible party to fines and penalties (Texas Natural Resources Code Chapters 33 and 51).**

RETAIN THIS PAGE FOR YOUR INFORMATION

## STATE OF TEXAS GENERAL LAND OFFICE RESIDENTIAL PIER REQUIREMENTS

**Structures will be designed and constructed to avoid locating them over existing marshes, oyster reefs, or seagrass vegetation to the greatest extent possible. If avoidance is not possible, the structures will be constructed in a manner to minimally impact vegetation and reef habitat. Mitigation and/or compensation may be required for impacts to natural resources.**

**Additional boatlifts, boathouses, and oversized personal watercraft slips will require additional rent and may be subject to approval by the School Land Board.**

- Only one pier with normal appurtenances will be allowed to extend from any given parcel of littoral property.
- No pier may extend from a point on the shore, which is closer than 10 feet from the adjacent littoral owner's property line.
- Walkways may not exceed 4' in width unless supporting documents are submitted showing a demonstrated need.
- Terminal Structures (ex. T-head/L-head) are limited to a maximum of 300 square feet over *unvegetated* areas, and 160 square feet over *vegetated* areas.
- Watercraft Storage Facilities (lifts, slips, hoists, shelters, etc.) are limited to a maximum width of 20 feet including accessory walkways; double lifts, slips, hoists, etc. are limited to a width of 40 feet including accessory walkways. Additional rent may apply for multiple watercraft storage facilities extending from any given parcel of littoral property.
- Personal Watercraft Slips (including ramps/platforms) cannot exceed a combined area of 120 square feet.
- Watercraft Storage Facilities must have a water depth of at least 3' HWM.
- Living quarters, toilets, fuel dispensing, enclosed buildings, or sanitary pump facilities are not allowed.
- Non-water dependent objects may not permanently be located on structures over State Land.

\* Revised Feb 2013

# PREPARATION OF MAPS, PLATS, AND PROJECT PLANS

Applications must be prepared according to the following requirements for maps, plats and project plans. Any deviation from the preparation requirements listed below may delay the application or deem it incomplete.

## I. FORMATTING REQUIREMENTS

Two (2) copies of the following information should be submitted with all new applications. Each map or plat should be prepared to the following specifications:

- A. Maps and plats should be a paper size of at least 8 ½" X 11".
- B. A 1-inch margin should be left at the top edge of each sheet for binding purposes.
- C. Since drawings may be reproduced photographically, color shading cannot be used.
- D. Drawings may show work as dot shading, hatching, cross-hatching, or similar graphic symbols.
- E. Each map, drawing, or plat should have a simple title to identify the project or work and must include the name of the applicant.
- F. The scale for all project plan maps must be indicated.

## II. PLAT OF SURVEY MAPS

Upon receipt of application, the General Land Office may require a plat of survey maps showing the location of the proposed work on State-owned lands. Plat of survey maps must be prepared as directed by the GLO.

## III. VICINITY MAPS

A map showing the location of proposed work is required. The map may be drawn on a separate sheet or drawn as an inset map on a corner of the street showing the details of the project or work. The map should show pertinent access roads (by name and number) and geographical features. The site should be shown by an arrow so project site can be located by field representatives. The vicinity map must have a meridian arrow showing North. Examples of acceptable maps include U.S.G. & G.S. Navigational Charts, U.S.G.S. Quadrangle Maps, or State Highway Maps.

## IV. PROJECT MAPS

Top view and cross-sectional drawings and descriptions of all existing and proposed structures on state-owned lands are required. The dimensions of all structures on state-owned lands and registration, easement, or lease numbers for existing structures issued by the General Land Office must be shown on all drawings.

### Top view drawings must also include:

- A. The shoreline
- B. The ebb and flow in tidal waters and direction of flow in rivers
- C. A meridian arrow showing North
- D. The location of property lines (if applicable)
- E. The location of any marshes, submerged grass flats or oyster reefs in the project area

### Cross-section drawings must also include:

- A. The bottom profile of state-owned land
- B. The mean high water and mean low water line (if applicable)

### Typical Structures:

- A. Pier
- B. Dredged Area
- C. Watercraft storage facility
- D. Bulkhead

## V. FEES AND RENT

Application fees and rent vary by project type, please contact the Field Office or Permit Service Center for your area for details. You do not need to send any money at this time, you will be invoiced accordingly.

18 U.S.C. Section 1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or disguises a material fact or makes any false, fictitious or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious or fraudulent statements or entry, shall be fined not more than \$10,000 or imprisoned not more than five years or both.

# RESIDENTIAL APPLICATION PACKET INSTRUCTIONS

## GENERAL LAND OFFICE – RESIDENTIAL APPLICATION

### Applicant

- **Applicant Name:** Name of owner(s) of property where project will be/is located
- **Entity Contact:** Name of person to contact if Applicant is a company/organization
- **Email Address:** Applicant's email address
- **Home/Cell/ Work /Fax Phone numbers:** Applicant's phone numbers, check which is primary
- **Mailing Address:** Street address/PO Box where mail is received and where paperwork will be mailed

### Agent (not required)

- **Agent Name:** Name of person to be contacted other than Owner regarding project
- **Email Address:** Agent's email address
- **Mailing Address:** Agent's street address or PO Box
- **Business Phone:** Agent's work phone number
- **Cell Phone:** Agent's cell phone number

### Land/Project

- **Check Boxes** (check all that apply)
  - I currently own this property
  - Please indicate if an owner of the property is 65 or older
  - Real Estate Agent/Contractor acting on behalf of owner or purchaser
  - Commercial construction or activity – *Check if project will be used for commercial purposes*
  - Homeowners Association (HOA) – *Check if the **applicant** is a HOA*
  - Property is leased as a vacation rental – *Check if property is rented out daily/weekly/monthly*
  - Structure is existing, I am proposing modifications at this time
  - Structure is existing, I am **not** proposing modifications at this time
- **Date of Purchase:** Date project site was purchased/acquired
- **Name of previous owners:** Owners prior to applicant
- **Name/Address of adjacent property owners:** Name and mailing address of two neighbors on either side of project site. Information can be obtained from the project site county appraisal district website.
- **Current COE Permit #:** Corps of Engineers permit number for project at site, if known
- **Current GLO ID:** General Land Office ID # for project at site, if known
- **Site Address:** Address of project site (may be different than mailing address)
- **Legal Description:** Information may be obtained from warranty deed or appraisal district
- **Waterbody:** Bay, river, creek, lake, etc. where project is/will be located
- **County:** County where project is/will be located
- **Types of Structures:** (check all that apply)
  - Check if project is proposed or existing (if there are only pilings/remnants of the structure, all changes are considered proposed)
  - Check if project includes a pier, dock, boat lift, walkway, rip rap, and/or other
  - Description of Structure: Length and width of all project components. (i.e. 4' x 25' walkway, 10' x 25' T- head, 10' x 50' rip rap)

### Signatures

- Property owner must sign application
- Agent should sign if applicable

# RESIDENTIAL APPLICATION PACKET INSTRUCTIONS

## U.S. ARMY CORPS OF ENGINEERS APPLICATION (FORM 4345)

### Page 1 of 3

- **Blocks 1 through 4.** To be completed by Corps of Engineers.
- **Block 5. Applicant's Name:** Enter name and E-mail address of the responsible party or parties. If responsible party is an agency/company/corporation/other organization, indicate the name of the organization and responsible officer and title. If more than one party is associated with the application, please attach a sheet with the necessary information marked Block 5.
- **Block 6. Address of Applicant:** Full mailing address of responsible party for the application. If more space is needed, please attach an extra sheet of paper marked Block 6.
- **Block 7. Applicant Telephone Number(s):** Phone number where applicant can be reached during normal business hours.
- **Blocks 8 through 11:** Complete if applicant chooses to have an agent.
  - **Block 8. Authorized Agent's Name & Title:** Name of individual or agency to represent you in this process. Agent can be an attorney, builder, contractor, engineer, or any other person or organization. Note: An agent is not required.
  - **Blocks 9 and 10. Agent's Address and Telephone Number:** Complete mailing address of agent, along with telephone number where agent can be reached during normal business hours.
  - **Block 11. Statement of Authorization:** To be signed by applicant if an agent is to be employed.
- **Block 12. Proposed Project Name or Title:** Name identifying the proposed project, such as Smith Pier or Jones Boat lift.
- **Block 13. Name of Waterbody:** Name of any stream, lake, marsh, or other waterway to be directly impacted by activity. If it is a minor (no name) stream, identify the waterbody the minor stream enters.
- **Block 14. Project Street Address:** If the proposed project is located at a site having a street address (not a box number), please enter it here.
- **Block 15. Location of Project:** Enter latitude and longitude of where proposed project will be located. If more space is needed, attach a sheet with necessary information marked Block 15. (Decimal Degrees preferred)
- **Block 16. Other Location Descriptions:** If available, provide Tax Parcel ID number of site, Section, Township, and Range of site (if known), and/or local Municipality that site is located in.

### Page 2 of 3

- **Block 17. Directions to the Site:** Provide directions to the project site from a known location or landmark. Include highway and street numbers as well as names. Also provide distances from known locations and any other information that would assist in locating the site. You may also provide description of the proposed project location, such as lot numbers, tract numbers, or you may choose to locate the proposed project site from a known point (such as the right descending bank of Smith Creek, one mile downstream from the Highway 14 bridge). If a large river or stream, include the river mile of the proposed project site if known.
- **Block 18. Nature of Activity:** Describe the overall activity or project. Give appropriate dimensions of structures such as wing walls, dikes (identify the materials to be used in construction, as well as methods by which work is to be done), or excavations (length, width, and height). Indicate whether discharge of dredged or fill material is involved. Also, identify any structure to be constructed on fill, piles, or float-supported platforms. *The written descriptions and illustrations are an important part of the application.* Please describe, in detail, what you wish to do. If more space is needed, attach an extra sheet of paper marked Block 18.
- **Block 19. Proposed Project Purpose:** Describe the purpose and need for the proposed project. What will it be used for and why? Also include a brief description of any related activities to be developed as the result of the proposed project. Give approximate dates you plan to both begin and complete all work.

- **Blocks 20 through 23.** Only fill out if dredge or fill material will be used.
  - **Block 20. Reasons for Discharge:** If activity involves the discharge of dredged and/or fill material into a wetland or other waterbody, including the temporary placement of material, explain the specific purpose of the placement of the material (such as erosion control).
  - **Block 21. Type(s) of Material Being Discharged and the Amount of Each Type in Cubic Yards.** Describe the material to be discharged and amount of each material to be discharged within Corps' jurisdiction. Please be sure this description will agree with your illustrations. Discharge material includes rock, sand, clay, concrete, etc.
  - **Block 22. Surface Area in Acres of Wetlands or Other Waters Filled:** Describe the area to be filled at each location. Specifically identify the surface areas, or part thereof, to be filled. Also include the means by which the discharge is to be done (backhoe, dragline, etc.). If dredged material is to be discharged on an upland site, identify the site and the steps to be taken (if necessary) to prevent runoff from the dredged material back into a waterbody. If more space is needed, attach an extra sheet of paper marked Block 22.
  - **Block 23. Description of Avoidance, Minimization, and Compensation:** Provide a brief explanation describing how impacts to waters of the United States are being avoided and minimized on the project site. Also provide a brief description of how impacts to waters of the United States will be compensated for, or a brief statement explaining why compensatory mitigation should not be required for those impacts.

**Page 3 of 3**

- **Block 24. Is Any Portion of the Work Already Complete?** Provide any background on any part of the proposed project already completed. Describe the area already developed, structures completed, any dredged or fill material already discharged, the type of material, volume in cubic yards, acres filled, if a wetland or other waterbody (in acres or square feet). If the work was done under an existing Corps permit, identify the authorization, if possible.
- **Block 25. Names and Addresses of Adjoining Property Owners Whose Property Adjoins the Waterbody:** List complete names and full mailing addresses of the adjacent property owners (public and private), lessees, etc., whose property adjoins the waterbody or aquatic site where the work is being proposed so that they may be notified of the proposed activity (usually by public notice). If more space is needed, attach an extra sheet of paper marked Block 24. Information regarding adjacent landowners is usually available through the office of the tax assessor in the county or counties where the project is to be developed.
- **Block 26. Information about Approvals or Denials by Other Agencies:** You may need the approval of other federal, state, or local agencies for your project. Identify any applications you have submitted and the status, if any (approved or denied) of each application. You need not have obtained all other permits before applying for a Corps permit.
- **Block 27. Signature of Applicant or Agent:** The application must be signed by the owner or other authorized party (agent). This signature shall be an affirmation that the party applying for the permit possesses the requisite property rights to undertake the activity applied for (including compliance with special conditions, mitigation, etc.).
