Narratives

Disaster Damage:

From June 18 to June 22, 2018, areas in South Texas were impacted by widespread rain and severe thunderstorms. The majority of rain fell the night of June 19 through the morning of June 20, leading to upwards of 18 inches of rain throughout the area. Although South Texas was in drought conditions right before this event, the area saw significant flooding. According to the National Weather Service, some of the most impacted communities were the cities of Alfred, Alice, Orange Grove, and Premont in Jim Wells County; Harlingen, Brownsville, and Los Fresnos in Cameron County; and McAllen and Mission in Hidalgo County. Local and national news reported thousands of water rescues performed throughout South Texas due to the formation of sinkholes and deep water that stalled vehicles. Additionally, at least 20,000 residents and businesses were impacted by the storm with more than 600 individuals in local shelters due to displacement—some residents saw upwards of 7 feet of water inundate their neighborhoods. On July 6, 2018, a Presidential disaster declaration, DR-4377, was declared for Cameron, Hidalgo, and Jim Wells Counties.

Recovery Needs:

The state of Texas completed the following needs assessment (the Assessment) to identify longterm needs and priorities that inform the state's use of the 2018 South Texas Floods CDBG-DR funding. This Assessment is a comprehensive set of data sources that cover multiple geographies and sectors and was completed in accordance with HUD guidelines cited in section VI.A.2.a. of HUD's Federal Register notice, 83 FR 5844 (February 9, 2018). The information focuses on the flooding impacts in the three CDBG-DR eligible counties: Cameron, Hidalgo, and Jim Wells. The Assessment was compiled using federal and state sources, including information from FEMA, HUD, the Texas Division of Emergency Management, and the Small Business Administration. This Assessment includes specific details about unmet needs within the eligible communities that relate to housing, infrastructure, and economic revitalization resulting from the 2018 South Texas Floods. The Assessment will primarily consider and address the housing unmet needs before other needs in accordance with HUD's Federal Register notice 85 FR 4681 (January 27, 2020). The Assessment will also discuss additional types of assistance that may be available to affected communities and individuals such as insurance, other federal assistance, or any other possible funding sources. Taking the above into consideration, mitigation and resiliency measures to protect against future hazards will also be examined.

Activity Description:

The GLO is committed to the purposes of planning in the areas that are eligible for CDBG-DR funds, and to the completion of some of the projects identified as a result of the studies. Because of the nature of the current disaster, and the recurring nature of disasters in the region, the GLO may concentrate on regional approaches in addition to specific local solutions to promote sound long-term recovery.

Location Description:

The Planning Program will take place in locations impacted by the 2018 South Texas Floods. The HUD-identified most impacted and distressed areas will see the most benefit of these planning activities, as 80 percent of planning funds will be used in studies which directly impact the HUD-identified most impacted and distressed

areas.

Activity Progress Narrative:

There is one ongoing planning contract, for Community Health and Resources Management (CHARM). It utilizes all available funding from this disaster.
