

GUIDELINES FOR POOLING UNLEASED RIVERS

Pooling State Leases and/or minerals: Chapter 52, Subchapter E of the Texas Natural Resources Code (Code) provides the statutory authority for pooling State Leases and minerals. The School Land Board (Board) must approve the pooling of State Leases and minerals (except oil and gas leases covering highway rights-of-way, which have limited pooling authority pursuant to their lease terms) and the Commissioner of the General Land Office (GLO) must find that the pooling is in the best interest of the State. The pooling of State Leases or minerals is for the purpose of conservation and utilization of the pooled mineral, to prevent waste, to facilitate orderly development and to preserve correlative rights.

Unleased riverbeds and channels: Section 52.076 of the Code provides that the Board may pool or bring an action to force pool riverbeds and channels. See Guidelines for Pooling Unleased Rivers. An Application for Pooling Unleased Riverbeds and Channels must be submitted.
