2021 Winter Storms: Fire Facilities and Protective Measures (FFPM) Program

The U.S. Department of Housing and Urban Development (HUD) allocated **\$43,632,000** in Community Development Block Grant Disaster Recovery (CDBG-DR) funding to the State of Texas in response to the 2021 Winter Storms (DR-4586). HUD designated all 254 counties in Texas as eligible for the grant, but designated Dallas, Harris, and Tarrant Counties as most impacted, or “HUD MID Counties”. HUD requires 80% (\$34,905,600) of the funds to be directed to the HUD MID Counties. Additionally, HUD requires at least 70% of the funds to benefit low- and moderate-income (LMI) persons. The GLO will award **\$7.5 million** of the remaining funding through the Fire Facilities and Protective Measures (FFPM) Program.

Program Overview

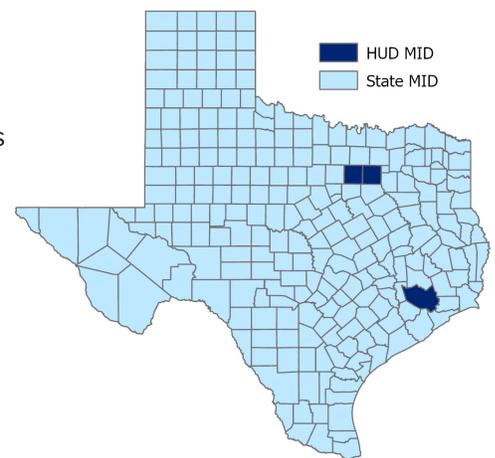

The FFPM program will provide funding for disaster relief, long-term recovery, and restoration of fire protection facilities for the remaining 251 Secondary MID counties impacted by the 2021 Winter Storms. Considering the limited CDBG-DR funding, the needs for emergency protective measures within communities, and the extent of the 2021 Winter Storms, this program will prioritize fire protection facilities and improvements and equipment, and power generators.

Eligible Project Types

- Reconstruction, construction, and improvement of fire protection facilities
- Fire protection equipment such as fire engines and specialized tools such as “jaws of life,” life-saving equipment, and protective clothing
- Emergency power generators permanently affixed to public facilities

Grant Awards

- Minimum Award: \$500,000
- Maximum award: \$1,000,000

Who Can Apply

To be considered, applicants must be a local government (city or county or federally recognized Indian tribe located in one of the 251 Secondary MID counties designated by HUD.
