What is Survey 123?

It is a questionnaire within the ArcGIS ecosystem designed for creating smart, location-aware surveys. It enables users to collect data via web or mobile devices, even while offline, and integrates directly with GIS for analysis and visualization.

1. Instructions and applicant information

2021 Winter Storms HUD MID County Application

Instructions

The 2021 Winter Storms HUD MID Counties program will provide funds for affordable multifamily housing and infrastructure projects in Dallas, Harris, and Tarrant Counties.

Submitted projects must:

- Address unmet needs or tie back to the 2021 Winter Storms.
- Comply with HUD and CDBG-DR requirements.
- Align with the State's approved disaster recovery plan.

For more information on the application process and program requirements, please see the [2021 Winter Storms Action Plan and guide](#) For large uploads, zip file first. [How to Zip Files](#)

6. Housing needs assessment

Housing Needs Assessment

Describe the jurisdiction's current supply of housing units available at affordable rents (Public Housing, Section 8 assisted, Rural Housing Service (RHS) assisted, HOME program assisted, Texas Department of Housing and Community Affairs assisted, Local Housing Development Corporation assisted, etc.).

2500 ↗

Describe past efforts to increase the supply of affordable housing.

2500 ↗

Describe efforts planned that will increase the supply of affordable housing.

2500 ↗

Describe any instances, within the past 5 years, where the applicant has applied for affordable housing funds and did not receive the funding.

Describe any instances, within the past 5 years, where the applicant has not accepted funds for affordable housing.

2500 ↗

Describe any current and/or future planned compliance codes to mitigate hazard risks.

2500 ↗

What methods and criteria were used to prioritize the projects in the application, including Affirmatively Furthering Fair Housing?

2500 ↗

What are the identified protected classes, racially and ethnically concentrated areas, and concentrated areas of poverty that may be impacted by this project?

6. Housing needs assessment

Provide a meaningful analysis in narrative form that describes how these identified populations may be impacted by this project.

2500

Upload any pertinent documentation in the support of Affirmatively Furthering Fair Housing (Including the narrative and certification requirements). This can include but not limited to: An analysis of impediments and a map identifying the locations of concentrations of race and ethnicity.

[Affirmatively Furthering Fair Housing](#)

Drop file here or select file

HUD's 2021 Interim Final Rule, Restoring Affirmatively Furthering Fair Housing Definitions and Certifications, requires program participants to submit certifications that they will affirmatively further fair housing in connection with their consolidated plans, annual action plans, and PHA plans. The applicant must provide a certification stating that the applicant, being the County, did take meaningful action that, taken together, addresses significant disparities in protected classes and vulnerable populations, significant disparities in housing needs, and access to opportunity, replaces segregated living patterns with truly integrated and balanced living patterns, transforms racially or ethnically concentrated areas of poverty into areas of opportunity, and fosters and maintains compliance with civil rights and fair housing laws. It must acknowledge the duty to affirmatively further fair housing consideration in all the program that extends to all participant's activities and programs relating to housing and urban development. To finalize the certification, a signature must be affixed at the bottom. This is an acknowledgment that, the applicant will take appropriate actions to overcome the effects of any impediments identified through any analysis and maintain records reflecting that analysis and actions in this regard. In addition, the signer is indicating that they have the legal authority to take this action on behalf of the applicant.

Refer to the Application Guide

Drop file here or select file

Drop file here or select file

7. Unmet needs and long-term planning

Unmet Needs and Long-Term Planning

Unmet Need (1) ▾

Taking into consideration the disaster-related impact to infrastructure, housing, and economic revitalization in the HUD most impacted and distressed areas described, citizen participation responses, and the assessment of housing and affirmatively furthering fair housing, provide a list (in priority order) of all the disaster-related needs still unmet from the Winter Storms 2021.

2500

Long-Term Planning ▾

Applicants must develop their community recovery projects in a manner that considers an integrated approach to housing, fair housing obligations, infrastructure, economic revitalization, and overall community recovery. Consideration of long-term planning processes is also highly encouraged. Disaster recovery presents communities with unique opportunities to examine a wide range of issues including:

- (1) housing quality and availability,
- (2) road and rail networks,
- (3) environmental issues,
- (4) the adequacy of existing infrastructure,
- (5) opportunities for the modernization of public facilities and the built environment,
- (6) the development of regional and integrated systems, and
- (7) the stimulation of the local economy impacted by the disaster.

Applicants must provide a brief description of how the project addressed in this application form part of an integrated approach to recovery.

Considering the local post-disaster evaluation of hazard risks, responsible flood plain management, future extreme weather/natural disaster events, and long-term risks, describe how the proposed project promotes sustainable long-term recovery.

2500

Describe how the proposed project coordinates with local and regional planning efforts to ensure consistency with and promotion of community-level and/or regional post-disaster recovery and mitigation planning.

2500

Describe how the proposed project integrates mitigation measures into rebuilding activities and achieves objectives outlined in community-level and/or regional post-disaster recovery and mitigation planning to reduce future risk.

2500

7. Unmet needs and long-term planning

Describe the cost and benefit analysis used in the selection of the proposed project and how they inform community-level and/or regional post-disaster recovery and mitigation planning.

2500

Describe how the proposed project will avoid disproportionate impact on vulnerable populations and create opportunities to address economic inequities facing the local community.

2500

Describe how the proposed project aligns with investments from other state or local capital improvements and infrastructure development efforts. Identify sources and amounts of additional infrastructure funding (e.g. state and local capital improvements projects and/or private investments). NOTE: This information will be required again in the "Other Funding" section of this application.

2500

Describe how the proposed project will employ adaptable and reliable technologies to guard against premature obsolescence.

2500

Describe how the proposed project will employ adaptable and reliable technologies to guard against premature obsolescence.

2500

Describe the applicant's overall recovery plan and how the project addressed in this application furthers that plan. Include information about how the project will specifically address the long-term recovery and restoration of housing in the most impacted and distressed areas. Also, include how the community will be more resilient against future disasters as a result of these projects.

2500

8. Project eligibility

2021 Winter Storms HUD MID County Application

Project Eligibility

Applicants are required to provide sufficient detail on each proposed project to identify the:

- oNational objective;
- oBeneficiaries;
- oEstimated costs and materials needed;
- oProjected schedule to completion;
- oPotential environmental details; and
- oOther details specific to the project type.

How many projects are being proposed? Note: That the mitigation set-aside amount must address current and future risks related to the winter storms met by either incorporate mitigation activities as part of the project that address unmet disaster recovery related to the 2021 winter Storms or as a stand-alone mitigation project.

23 |

Project (0)

National Objectives

Identify the National Objective to be met upon completion of the proposed project.

-Please select-

How many projects are being proposed? Note: That the mitigation set-aside amount must address current and future risks related to the winter storms met by either incorporate mitigation activities as part of the project that address unmet disaster recovery related to the 2021 winter Storms or as a stand-alone mitigation project.

23 |

Project (2)

1 2

Project Title

For the title, the spelling and capitalization of the project title and any associated site number(s) identified in the application must be consistently used throughout the application to ensure clear identification of each project and site number. e.g., a project title of "Green Acres, Site 3" here should appear as "Green Acres, Site 3" at every other reference in this application. A reference to some other title such as "green acres subdivision" or "#3 Green Street" elsewhere in the application could cause delays in the eligibility review process.

Program Type

2021 Winter Storms (21WS) HUD MID Counties Program + Mitigation Set-Aside

Provide the CDBG-DR eligible activity for the proposed project type.

Rehabilitation, reconstruction, and new construction of affordable multifamily housing
