**Task 1: Creation and installation of displays for exhibits, Status: Completed**

**Final Deliverable: Photos of completed exhibits**

11/25/2009

### Life on Offshore Rigs

About the Gulf of Mexico there are nearly 1,000 miles of 19 artificial reefs that have been placed in the Gulf of Mexico.

#### Artificial Reefs

Artificial reefs are structures that are placed in the ocean to provide a habitat for marine life. They are made of a variety of materials, including concrete, steel, and wood.

### Offshore Rigs
