

Cycles 14 and 15 Port Lavaca Causeway Fishing Pier Improvements

- Cycles 14 and 15 CMP 306A funds were combined to reconstruct 100 linear feet of the Port Lavaca Causeway Fishing Pier with marine grade lumber.
- The engineer's final inspection was conducted July 15, 2011 with no deficiencies in construction work identified.
- This concludes the eighth phase of the pier reconstruction, totaling approximately 915 linear feet of the original 2,300 foot pier.
- Attached to this document is a press release from the City of Port Lavaca announcing the completion of the pier and photographs showing the newly constructed 100 linear feet of pier as well as the entire 915 feet of pier.

The City of Port Lavaca is pleased to announce completion of a new section of the fishing pier at Lighthouse Beach Park. Everyone is invited to come see the new improvements and enjoy being out over the water. Recent construction was funded in part by four grants awarded by the Office of Ocean and Coastal Resource Management, the National Oceanic and Atmospheric Administration, the U.S. Department of Commerce, and administered through the Coastal Coordination Council and the Texas Coastal Management Program.
