AUSTIN — Texas Land Commissioner George P. Bush is encouraging all Texans to prepare for the 2019 Hurricane Season, which begins Saturday, June 1 and runs through November 30, 2019.

“Every Texan should prepare for hurricane and storm season,” said Commissioner Bush. “As we all know in Texas, it’s not a matter of if, but when the next storm will hit. It is not just Coastal Texans at risk as flooding happens in almost all parts of Texas. Know your risk, protect your home, plan your supplies and evacuation route now. During an emergency, there’s no time to waste. Do your part to keep yourself, your family, pets, and your property protected.”

The GLO encourages all Texans to prepare for Hurricane Season 2019 by doing the following:

Know Your Risk - Sign up for your community's emergency warning system. The Emergency Alert System (EAS) and National Oceanic and Atmospheric Administration (NOAA) Weather Radio also provide emergency alerts.

- **Gather Supplies** - Keep in mind each person's needs, gathering supplies for at least three days. Stock up on items such as food and water, non-perishable foods, first-aid supplies, prescriptions, pet supplies, flashlights and batteries. Don't forget to charge electronics you may need.
- **Secure Documents** - Remember to secure copies of important personal documents. Filing for government assistance requires documentation. Be sure to keep documents in a secure location and take them with you if you need to evacuate.
- **Make Your Evacuation Plan** - Be familiar with the route and shelter locations. Discuss and practice drills for your evacuation plan with your family each year.
- **Protect Your Property** - Shutter your home as needed, review your flood insurance policy (or sign up for one) and declutter drains and gutters. Most homeowner and renter insurance policies do not cover flood damage. A flood insurance policy generally does not take effect until 30 days after purchase, so be sure to maintain your policy.

“If you survived Hurricane Harvey without any damage, count yourself as lucky,” Bush continued. “The next storm could be entirely different, and that’s why it’s so important to be prepared, and stay prepared.”

As a part of preparation, Commissioner Bush and his Texas General Land Office team are working with communities across the Texas coast and inland as well to make sure they are prepared to help residents should a storm arise. Texas communities are at risk of tornadoes, floods and damaging winds.
